

Organization and Management (ME708)

Concise PYQ

Notes: TU IOE PYQ 2065–2082, 29 papers (ME708; one common paper for BEL/BEX/BCT, BEI from 79 Bh). Regular = **bold**, Back = normal; “Regular / Back” counts as Regular. Marks in (); unique values only. **Ash** = **Ashwin**, **Asa** = **Ashad** — different months. 2065–2068 set six questions, answer any five; 2070 Asa sets twelve, answer any ten. Keys: (I)=Importance/Need (+)=Advantage (-)=Disadvantage +Eg=Example Vs=Compare/Differentiate.

1. Introduction

Organization

- Define organization (system / open / social system); principles; (I) in society (+ scientific management theory); goal setting; formal Vs informal; historical development (1+4+3)(2+6)(3+5)(5+3)(3+5+8)
- Informal org within family? sustain without org? roles for employee's professional growth (2+2+4)(2+3+3)(2+4+2)
- Role of organizations for civilization / business / society; organization behaviour as multidisciplinary field; elements of an organization (4+4)(4+4+8)

Management

- Functions; levels + functions at each level; managerial skills (degree per level; also short note); qualities of good manager; (I) of management (3+2+3)(4+4)(2+6)(1+4+3)(4)
- Models of management +Eg (any three); roles of a manager; team effort model (short note) (3+5)(4+4)(4)
- Organization Vs management; “management is science & art”; need scientific approach (1+3+4)(2+2+4)(4+2+2)

Theory of Management

- Scientific management +Eg +historical +experiments; still applicable? Vs Management Science; Taylor's principles (5+3)(4+4)(3+5)
- Scientific Vs Behavioral Vs Administrative approach — contributions & limitations; rationale for Scientific approach (8)(4+4)(5+3)
- (+) of behavioral over scientific / modern management (8)(3+5)
- Fayol's administrative theory / 14 principles; applicable today? (8)
- Contingency & system approach; contingency theory (I); best theory for Nepal / today's business (3+5)(8)(4+4)

Forms of Ownership

- Single ownership Vs JSC; forms of ownership (+)(-); change of ownership form +Eg (8)(4+4)
- JSC: characteristics / formation / registration in Nepal; (+) & limitations; Vs Public Corporation; Vs partnership; private Vs public ltd (4+4)(3+5)(2+6)(5+4+7)
- Partnership (+) & features + difficulties; co-operative societies + types; CEO's ownership choice + structure (3+5)(8)(5+3)

Organizational Structure

- Line & staff Vs line & functional; committee + types (4+4)
- Organizational structure defined (also short note); line org (+)(-); functional org +Fig; matrix organization chart; responsibility Vs authority; span of control (2+2+4)(2+3+3)(4+4+3+5)(4)
- Policy group Vs executive group; production development activities; manufacturing methods; industrial relation (4+4)(5+6+5)(5+3+5+3)
- Best structure for temporary engineering project (8)

Purchasing & Marketing

- (I) of marketing (business / digital era / modern); define marketing; methods of purchasing; functions of marketing; marketing (short note) (4+4)(3+5)(8)(4)
- Advertising + (I) of marketing; principle / functions of purchasing; purchasing procedure; salesmanship (1+3+4)(3+5)(5+3)(3+2+3)
- Purchasing & marketing dept role (also short note); purchasing process; software-marketing challenges in Nepal (8)(4)(4+4)

2. Personnel Management

- Define personnel management + functions; main idea; policies; motive; HR planning steps; HRMS Vs personnel mgmt; define + wage-structure factors + appraisal methods (8)(4+4)(1+4+3)(2+4+2)(3+5)(4+8+4)
- Personnel policy development terms; HRM's role in org development; manpower planning (I; also short note); employee handbook (5+3)(3+5)(4+4)(4)
- Recruitment & selection; hiring Vs recruitment; steps of hiring & selecting staff (+ job analysis, appraisal); outsourcing; scientific selection; job description; collective bargaining (3+5)(6+2)(5+3)(4+6+6)(3+5+5+3)(6+5+5)
- Job analysis / evaluation / merit rating / recruitment; merit-rating

methods; performance-appraisal methods; job description & specification (Lecturer post) (4×2)(2+6)(3+5)(2+3+3)

- Wage/salary structure factors; incentives; wage Vs salary; training types & benefits; training-manpower methods (4+4)(3+5)(8)(3+3+2)(3+2+3)
- Interview role; salary/benefits expected on joining (5+3)
- Talent poaching / employee-development program; appropriate Vs inappropriate HR (4+4)(8)

3. Motivation, Leadership & Entrepreneurship

Motivation

- Human need + motivation; techniques of motivation; attitude/group/executive motivation (2+2+4)(4+4)(3+5)(8)(2+6)
- Maslow's hierarchy +Eg; satisfaction progression; satisfaction progression Vs frustration regression (short note); Maslow Vs Alderfer ERG; falling from the pyramid (3+5)(2+3+3)(8)(4)
- Herzberg hygiene / two-factor; Vroom VIE / expectancy (process theory); Alderfer Vs Herzberg; fear & punishment theory; Herzberg + most effective leader / behavioural leadership + informal org / authority & power (4+4)(8)(3+5)(4)(5+7+4)(6+6+4)(6+5+5)
- McGregor Theory X Vs Y; job design & work efficiency; participative management (3+5)(2+6)(8)(5+3+4+4)

Leadership

- Blake & Mouton managerial grid +Eg; leadership approaches; significance for growth (4+4)(8)(3+5)
- Qualities of good leader; style for engineering project / Nepal / industry / start-ups; democratic / autocratic / trait / behavioral / contingency; authority & power (4+4)(3+5)(8)(2+6)
- Leader Vs manager; Boss Vs leader; “leader is a reader”; career pursuit (4+2+2)(8)(5+3)

Entrepreneurship

- Define + characteristics (also short note); steps to establish small-scale unit; need for promotion (Nepal / developing nation / government) (3+5)(4+4)(8)(3)(4)
- Conducive environment needed; vital role in economic development; IT sector Nepal; startup after graduation; national economy + law enforcement; Silicon Valley +Eg (8)(5+3)(4+4)

4. Case Studies

- Steps / phases of case study +Eg; objectives; types; why conducted; value (8)(3+5)(4+4)(4+2+2)(4)
- Prepare case study — NEA / Nepal Telecom / college improvement (8)

5. Management Information System (MIS)

- Role / (I) / need of MIS; four types of information systems + support in decision making; database IS +Eg; types of MIS; information architecture; network IS (3+5)(2+6)(8)(4+4+3+5)(5+3)
- MIS at different management levels; DSS Vs MIS; DSS for production managers; data Vs information Vs knowledge Vs wisdom; EIS for top managers (8)(4+4)(2+6)
- Computers & MIS relationship; role of computer / website; organizing information systems; computer-aided advertising (2+6)(2+2+4)(4)
- Information support for functional areas; IS for planning & control; hierarchy of information needs; IS for decision making (4+4)(8)(2+6)(5+6+5)(4×4)

6. Extra (2065–2068 only)

- Short notes set only by the 2065–2068 papers (later short notes are listed under their chapters): industrial relation; job design & work efficiency; computer integrated manufacturing plants; collective bargaining; management by objective; span of control; scientific management; contingency management theory / approach of leadership; incentive programs; marketing concept; leadership style; partnership / functional / single-ownership / informal organization (4)
